David Skoug joins IMCO Technologies

(Pewaukee, Wisconsin, USA) David Skoug, R.T.R. has taken the position of Sr. Clinical Applications Specialist at IMCO Technologies. David's wealth of experience makes him an excellent addition to the IMCO team.

David's career path started as a Nursing Assistant. His desires and abilities led him to become a Radiologic Technologist (R.T.). For twenty years, as an R.T.R., he provided services to patients, assisted medical staff, and continued to increase his knowledge, skills, and responsibilities. In 1998, David chose to focus on his abilities as a trainer/teacher by pursuing a career as an Applications Specialist. At that time he was head of the Radiology Department in a 524 bed teaching hospital as well as a teacher at a School of Radiologic Technology. David has been an Applications Specialist for ten years.

David's training philosophies are built from his experiences as a caregiver. That, plus his hands-on experience with PACS/RIS give him a winning combination of knowledge and skills. We are very pleased to have him aboard.

About IMCO Technologies

IMCO Technologies is celebrating its 18th year as an innovator in the PACS marketplace. IMCO produces, sells and services computer-based products for managing the images of hospitals, imaging centers, medical clinics and orthopaedic practices. Product development centers on the principles of; 1) ease of use, 2) system configurability and modularity, 3) rapid image retrieval, 4) affordability, and 5) adherence to industry standards.
