IMCO Technologies Announces IMCO-Peer Review

(Pewaukee, Wisconsin, USA) Critical Test Results Management (CTRM) company, [IMCO Technologies](#) announces the release of IMCO-Peer Review.

IMCO-Peer Review is a fully automated system designed to streamline the peer review process required by the American College of Radiology (ACR). Combining IMCO Technologies flexible technology and quality expertise, IMCO-Peer Review provides a statistically valid peer review system that assigns over-reads to qualified radiologists by subspecialty to ensure compliance with regulatory standards and integration into the performance evaluation and reappointment process.

This new product is part of the IMCO Technologies portfolio used to enhance communications between care givers and will benefit physician's ease of use, workflow efficiency, and improved patient care.

About IMCO Technologies

IMCO Technologies is celebrating its 21st year as an innovator in the information management marketplace. IMCO produces, sells and services software solutions in hospitals, imaging centers, radiology reading groups and clinical laboratories. Product development centers on the principles of: 1) ease of use, 2) system configurability and modularity, 3) fast performance, 4) affordability, and 5) adherence to industry standards.
